Pregnant?

Have your COVID-19 vaccines!

- COVID-19 infection is currently circulating and can be serious for pregnant women
- thousands of pregnant women have been safely vaccinated in the UK and worldwide
- it is important to have both doses of your COVID-19 vaccine to protect you and your unborn baby

Find out more:

COVID-19 vaccinations are recommended for pregnant women by the Royal College of Midwives and Royal College of Obstetricians and Gynaecologists.

You can use this QR code to read more about the COVID-19 vaccine and pregnancy.
