Attitudes to the
childhood vaccination
programme in parents

Most parents said that their children
had **received all the vaccines
they had been offered**

95%

parents said their child younger
than 3 years 4 months of age
has had all the vaccines they
were offered

86%

parents said their child aged
3 years 4 months or older
has had all the vaccines
they were offered

The data is taken from the Attitudes to the childhood vaccination programme in parents of babies and children under 5 years of age survey undertaken in 2022. UKHSA Immunisation and vaccine preventable diseases Division. UKHSA gateway number: 2022652
