# It's time to have your spring COVID-19 vaccination

**You should be offered an appointment  
between April and June, with those at  
highest risk being called in first**

**People aged 75 years and older, residents in care homes for older people, and those aged 6 months and over with a weakened immune system will be offered a dose of coronavirus (COVID-19) vaccine this spring.**

If you are turning 75 years of age between April and June, you do not have to wait until your birthday, you can attend when you are called for vaccination. The COVID-19 vaccine will reduce the chance of you becoming severely unwell from COVID-19 this spring and summer.
